

## Regard - Wood Conditioner

Nuvite's Regard is the finest and gentlest nutrient oil cleaner and fine wood conditioner available. The rich, finely-refined oils rejuvenate dried wood finishes and enrich the surface to reflect the finish, natural or applied. Non-abrasive and effective as a cleaner of dirt accumulation, Regard can also be used to help restore minor surface imperfections and maintain the reflectance on high gloss finishes, including polyurethanes, varnish, shellac, and even laminates. In addition, it leaves a protective surface to resist hand oil, high humidity or overdryness. Regard feeds and protects wood and wood finishes by replacing nutrient oils and is completely biodegradable. Easy wipe on, rub in and polish off application.
